**Collaborative support on biological samples
(Mosquitoes - eggs/ larvae/ pupae/ adult) to different academic institutions**

Scientist working on mosquitoes/ entomological studies related to vector borne diseases are welcome for participation under collaboration with CRME. Following formalities are to be fulfilled before such collaboration can be initiated:

1. A Memorandum of Understanding (MoU) must be signed between CRME and the collaborative academic institution specifying the nature of collaboration.
2. Every scientific project proposal from the collaborative institution must be duly approved for collaboration by the Scientific Advisory Committee (SAC) of CRME.
3. For biological sample support, the collaborator must approach minimum two weeks in advance for necessary approval and preparation.
4. For subsequent request for sample, a detail report on how the previous samples were used is necessary for approval.
5. All manuscript for publication/ abstract for presentation at conference / symposium / meeting / etc. out of the collaborative project must be duly approved by the Director CRME before publication / presentation at conference etc.
6. All communication must contain acknowledgement of CRME.

For any clarification/ information regarding the above matter please contact:
